

Level: natas2 → natas3

- **Objective:**
Locate a hidden resource on the server.
- **Vulnerability/Concept Exploited:**
Hidden directory/file not directly linked on the page.
- **Tools/Techniques Used:**
Directory brute-forcing manually, "robots.txt" inspection.
- **Steps Taken:**
 1. Viewed the HTML source; found no password.
 2. Tried accessing /robots.txt by appending to the URL.
 3. Found a disallowed directory or file.
 4. Accessed it and retrieved the password.
