

Level: leviathan0 → leviathan1

- **Objective:**
Find the password for the next level.
- **Vulnerability/Concept Exploited:**
Readable file containing password.
- **Tools/Commands Used:**
ls, cat
- **Steps Taken:**
 1. Logged into leviathan0 using the provided SSH credentials.
 2. Ran ls -la to list hidden files in the home directory.
 3. Found a file named leviathan0.
 4. Used cat leviathan0 to read the file contents.
 5. Retrieved the password for leviathan1.
