

Level: leviathan4 → leviathan5

- **Objective:**
Find the password for the next level.
- **Vulnerability/Concept Exploited:**
World-writable files or insecure permissions.
- **Tools/Commands Used:**
ls -la, cat, strings
- **Steps Taken:**
 1. Found a binary that writes output to a file.
 2. Explored writable files with ls -la.
 3. Inspected the file contents to find the password.
